You say I only want you when I'm " " and alone (yeah, yeah)

[Chorus 1: Xuitcasecity]

You say I only want you when I'm fucked up and alone (yeah, yeah)

2 A.M. calling up your phone

Mixed signs, mixed signals getting crossed (yeah, yeah)

Quit talking bout the feelings that you caught

[Verse 1: Xuitcasecity]

Say I'm only worried bout my damn self

Everyone around say that don't sound like me

I got anxiety depletin serotonin

Tryna find my level poppin e until I peak

I been sleeping all day

I can't wait till summer

My bitch cold hearted

She so dry like Arizona

You get your way always  
Anytime you want it  
That's why when you call I feel so sick to my stomach  
And you say I only want you when I'm fucked and alone  
Always gotta question  
Stop asking bitch I'm grown  
Stop callin goddamnit you been fuckin up my sauce  
Always on some shit  
So I had to lay the law

[Chorus 2: Alone.]

How am I the one that she be choosin?  
Got me wondering just what the hell she views in me  
I gotta cup of beans that I just keep abusing  
And a city full of women who just using me

[Chorus 1: Xuitcasecity]

You say I only want you when I'm fucked up and alone (yeah, yeah)  
2 A.M. calling up your phone

[Verse 2: Alone.]

Says she come from money but I came up on my own  
I got her Daddy looking broke  
And I ain't got no time for jokes  
Feeling mixed vibes  
But I heard a little rumor through the grapevine  
Is you just another hoe or will you be mine?  
If she bad I wanna know her on the inside  
So just hit up my phone  
But I only call when I'm drunk or alone

[Chorus 2: Alone.]

How am I the one that she be choosin?  
Got me wondering just what the hell she views in me  
I gotta cup of beans that I just keep abusing  
And a city full of women who just using me
